25 years of *Woodturning* from a Dutch perspective

Hello Mark,
I have been a subscriber to *Woodturning* since the beginning and have copies of all the issues. I have been turning since 1992 and have been on multiple courses in Great Britain, I think it was around 1992 that I went to the NEC woodworking show in Birmingham where I became hooked on going to woodworking/turning shows in Great Britain. I remember buying the Arbortec carver prototype at the end of one show. That started my carving on turning, which at first other turners said was butchering wood, but eventually it won me some prizes at other shows!

Woodturning magazine has always been an inspiration for me and I suppose many others. GMC Publications used to have leftover magazines at the end of shows and I was able to take a great number of them home. It is always nice to meet or see demos by the turners that write for the magazine or are being written about at shows or symposiums like the AWGB. I also love reading the tips and tricks and trying them out. Remember the days before Google search? If you wanted information you needed a magazine like *Woodturning*. In those years I had hundreds of visitors to my workshop/gallery that came to read the magazines. I always gave them one or to of those leftovers from the shows. I hope many of them took out a subscription. When I visit my local chapter of our woodturning club I take the magazines. The beauty is that the magazine brings woodturners together around the world. It is an exhibition of woodturning passion, professionalism, hobby, and art and craftmanship. Please continue for many more years.

Woodturning 284 25th Anniversary Nova Giveaway prize

In issue 284 – celebrating 25 years of *Woodturning* magazine – we kicked off the anniversary celebrations by featuring a Nova Comet midi lathe and accessories giveaway. We are pleased to announce that the winner is: **BRIAN MASTERS FROM THE ISLE OF WIGHT.**

GIVEAWAY COMMUNITY

25th anniversary giveaway – NOVA Comet midi lathe & accessories

To celebrate 25 years of *Woodturning* magazine, over the next few issues the leading names in the industry will be giving away items from their product ranges. This month, **BriMarc Tools & Machinery** give away one of their NOVA Comet lathes and a host of other accessories to **one lucky reader**

WORTH £680!

NOVA Comet 305mm midi lathe

The NOVA Comet is the most versatile and innovative smaller lathe on the market today. Although portable and space saving it still manages to deliver the capacity and rugged stability of larger machines. Its powerful 3hp electronic variable speed motor offers a wide speed range from 250–4,000rpm and the forward and reversing switch offers additional flexibility for a superior finish. With its 305mm swing capacity over bed and 405mm between centre capacity, expandable to 1,040mm with the optional bed extension accessory, the NOVA Comet delivers an exceptional turning experience.

NOVA G3 reversible chuck

This four-jaw self-centring ground chuck is designed exclusively for the NOVA Comet II midi lathe. It comes with a reverse lock feature, which enables the chuck to be locked securely onto the lathe spindle when using the forward and reverse functions. This fully featured chuck comes as standard with the unique NOVA features, including 'Auto Stop', copper composite jaw slides, woodworm screw, comfortable T-bar handle and 50mm jaws. The powerful 'Tuff Lock' gearing with precise, hardened action delivers incredibly smooth strength for a solid, vibration-free performance. This chuck takes the same accessory range as other NOVA chucks in the range, giving you the ultimate in flexibility.

NOVA Comet extension bed

This unit enables the spindle length of the NOVA Comet II lathe to be expanded. Each extension adds 585mm in length to the lathe. Made from solid cast iron for long life and maximum strength and rigidity.

NOVA chuck accessory Cole jaw set

This accessory universally fits to any NOVA chuck for maximum flexibility, saving [illegible] This is a versatile [illegible]

Woodworking Shows 2016

The Midlands Woodworking and Power Tool Show
When: 18–19 March, 2016
Where: Newark Showground, Nottingham, UK
Web: www.nelton.co.uk

Turnfest
When: 18–20 March, 2016
Where: Seaworld Resort and Water Park, Australia
Web: www.turnfest.com.au

Yandles Woodworking Show
When: 8–9 April, 2016
Where: Hurst Works, Hurst, Martock, Somerset, UK
Web: www.yandles.co.uk

Utah Woodturning Symposium
When: 12–14 May, 2016
Where: UCCU Events Center, Orem, Utah, USA
Web: www.utahwoodturning.com

Weird and Wonderful Wood
When: Mid May 2016
Where: Haughley Park, Wetherden, Suffolk, UK
Web: www.weirdandwonderfulwood.co.uk

American Association of Woodturners Symposium
When: 9–12 June, 2016
Where: Atlanta Convention Center at AmericasMart, Atlanta, Georgia, USA
Web: www.woodturner.org

UK & Ireland Woodturning Symposium
When: 18–19 June, 2016
Where: Hilton Hotel, Coventry, UK
Web: www.ukiws.co.uk

West's Wood Fair,
When: 25–26 June, 2016
Where: East Dean, Nr Chichester, West Sussex, UK
Web: westswoodfair.co.uk

Yandles Woodworking Show
When: 9–10 September, 2016
Where: Hurst Works, Hurst, Martock, Somerset, UK
Web: www.yandles.co.uk

North of England Woodworking and Power Tool Show
When: 18–20 November, 2016
Where: Great Yorkshire Showground, Harrogate, Yorkshire, UK
Web: www.skpromotions.co.uk
