Class-Defining Woodturning Lathes

Now Even Better Value

DB801/DB802 Vario
Outstanding lathes for the smaller workshop

Here's a pair of lathes that punch well above their substantial weight. Providing eletronically variable speed control delivered through 2-spd (DB801) or 3-speed (DB802) belt transmission (like a car with both accelerator and gearbox!) 520 mm swing over bed; 820mm capacity between centres
£2632 with stand or £2260 bench mounted

DB1000 Vario
Mid-range Might

1HP or 2HP high efficiency motor delivering controllable torque through electronic variable speed drive and four-step belt transmission. HD tailstock and floor stand
520 mm swing over bed; 970 mm capacity between centres
1HP Vario £3059; 2HP Vario £3266

DB6000 Vario
Premium performance bowl lathe

Here's a lathe that makes the best of every square inch of workshop space, packing in the punch of a DB1200 in the footprint of a DB800. Also available in full bowl-turning configuration with auxilliary bowl bed. 2HP or 3HP drive.
2HP £3691; 3HP £3995

DB1200 Vario
Whatever the task, this lathe will prove the master of it

With 1200 mm between centres and 520 mm swing over the bed, the DB1200 is robustly made to take big jobs in its stride. With a choice of 2 HP or 3HP electronically variable speed motors driving through a 5-step belt drive system there's controllable torque to handle any turning job.
2HP £3893; 3HP £4168
