Cutting the bead

Sheer scraping the bowl

Conclusion

Burr wood is beautiful, and as anybody who produces work for sale will tell you, it sells itself. However, as detailed here, burrs can be problematic. Awareness of potential problems, steps to overcome problems and attention to the relevant safety aspects should help to ensure a safe and positive outcome. ●

TOP TIPS: WORKING WITH BURR

- Take it slowly
- Be careful
- Keep tools sharp
- Take light cuts
- Be very aware of bark inclusions and voids

The finished bowl for Jill Barber; I hope Phil would have liked it
