Axminster Trade Series
SBW4300B Bandsaw

£1,199.95 Inc.vat Code **501200**

The SBW4300B has a powerful 1500W braked induction motor, large capacities, a quick release blade tensioning lever and is made to exacting standards, making it a firm choice for the trade workshop.

Probably the most versatile machine in any workshop

Axcaliber Diamond Ground Tooth Blades

A bandsaw is often the first machine used when preparing timber, but it's only as good as the blade you put in it. For the ultimate cut, Diamond Ground Tooth Bandsaw Blades are exclusively available from Axminster. The diamond ground teeth are so unbelievably sharp that these blades work well in all materials. Made from a unique steel, the annealed and fully guaranteed weld provides a blade with an exceptionally clean cut and superior quality finish. Diamond ground teeth stay sharper for at least 30% longer.
